

Tech NATURE

PRIVATE LABEL MANUFACTURER

FRANCE

FULL SERVICE : FORMULATION - R&D - MANUFACTURING - FILLING

20th
YEARS
ANNIVERSARY

Your innovative partner for all
your professional beauty cares

FORMULATION

Creator of forward-looking cosmetic concepts and WoW Products®

Need an idea? looking for innovation? want a specific product? We meet your wishes through :

- the uniqueness of our know-how in cosmetic concepts' creation,
- our expertise in peel-off masks, cosmetic powders and skin cares,
- our well-equipped Laboratory that completely matches the energy and creativity of our R&D Team : diversified formulas.

A perfect combination of the right place and the right people to think up future treatments (novelties of concepts, effects and textures).

INPI trophy...our constant innovation REWARDED

Be present in the worldwide market, be reactive & innovative, be a high-quality producer; those are our main commitments that have been honorably acknowledged with the «INPI Brittany award 2013» that we won.

This National Industrial Property Institute of FRANCE with this trophy rewards the SMEs/SMIs for their strategies in terms of innovation and industrial properties.

REGULATORY SERVICE

A service meeting the regulatory requirements

Our regulatory department, gives you advice and guides you through, to make sure your products meet the regulatory compliance:

- building up and updating the files containing information about the products,
- checking up the compulsory information in terms of labelling,
- creating regulation document required for export/import or shipment of the goods,
- subcontracting the tests (challenge tests, efficacy tests, safety assessment).

MANUFACTURING

An industrial site of 4500m² devoted to powders, and all kind of galenic forms manufacturing (creams, serums, lotions, milks, masks, oils...)

Manufacturing / filling powders and vacuum-packed cosmetics:

- powder: from 60kg to 4 tons/batch
- cosmetic: from 50kg to 1 ton/batch

Manufacturing / filling of Hydrogel masks and patches.

**ORGANIC
COSMETIC**

Manufacturing process meeting the requirements of the Ecocert certification

FILLING

A personalized toll-manufacturing

Several packaging options: sachets, tubes, airless, bottles, pots, buckets, sample tubes...

Printing your graphic design: we can print on multiple supports (sachets, silkscreen printing, labelling, cellophane, box printing, digital printing...) always with high definition marking quality.

Certified
ISO 22716
Good Manufacturing
Practices

We ensure traceability and rigor in every step of manufacturing. Technature is certified ISO 22716 Good Manufacturing Practices.

The must-have

AND IRRESISTIBLE

HYDROGEL MASK AND PATCH 1

Made in France & customizable

With its unique gel texture, Hydrogel mask is the must-have beauty care products. Our masks and patches are made according to 3 different manufacturing methods:

- with support,
- with tissue support,
- with thermoforming mould.

As usual with Technature products, the masks and patches are customizable (shapes, formulations, devices...) according to your needs and your terms of service.

2 BIOCELLULOSE MASK AND PATCH

Second skin effect

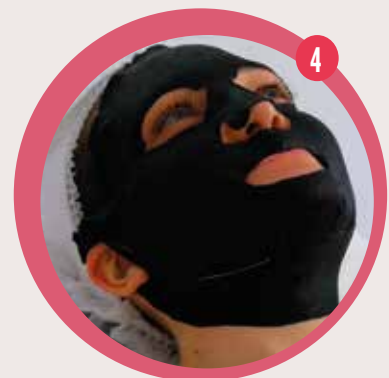

The bio-cellulose masks are nowadays present on a wilder market of cosmetics. Made out of natural fermentation of coconut water, bio-cellulose has unique moisturizing properties. This biotechnology was initially developed for the treatment of severe burn victims. With its supple and thin membrane, it has a "second skin" effect and is suitable for all types of skin. This care is THE beauty gesture which offers at home the efficacy and expertise of a professional care. (Available in masks, patches, face & neck, neckline and eye contour versions...)

4 TISSUE MASK

Purifying and detoxifying

This tissue mask surprises by its specific cut. Elaborated for face care, the special thing about this product is the ear hooks that allow to maintain and strengthen the lifting effect.

3 PEEL-OFF MASK 3

The must-have

Thanks to a unique know-how on the alginate gelling process and the use of natural & preservatives-free powders; the peel-off mask quickly became

Technature's lead product. This mask with second skin effect provides a unique feeling of comfort thanks to its surprising, light and «stretchy» texture. It peels-off in one whole piece. Its expertise and its technicality in the powder mixing process, in the temperature and setting time controls have allowed the line of peel-off products (body, face, heating, cryogenic, with fruits and vegetables, to shake...). The must-have product for your professional cares.

The latest in the line, the tissue of the puri-detox mask is impregnated of activated charcoal. The association of two acids with a matifying skin refiner helps control bacterial growth and fights shininess, blemishes pores.

These ingredients maintains a healthy skin

New products

2016

1 TRIPHASE SERUM

Boost your beauty routine !

Boost the radiance of your skin and your beauty routine with this triphase serum : actives concentrate in each phase.

Precious vegetable oils for a healthy glow.

Emollients ingredients for skin hydration.

Patented actives selected for their anti-ageing and firming effects which will give a new life to your skin.

2 LEAF MASK®

When Nature serves Beauty

In collaboration with the start-up **LeafLab** (SWM company), Technature has developed a new ritual of beauty that highlights the benefits of the plants: the vegetal mask **Leaf mask**®. This «leaf mask» is composed of fibers and plant extracts.

This process draws on plants' virtues without altering their properties in order to find them in this mask.

Once rehydrated with a lotion or simply with water, the mask adheres to the skin, thus giving it the naturalness of the plants.
